TC 1700 MAIL ROOM

1. I am an employee of Cordant Technologies Inc. and, in that capacity, have served as the project engineer for the invention covered in the above-identified patent application. I am also one of the four inventors listed on the above-identified application and, in that capacity, have contributed to the conception of the invention claimed in the application.

2. The invention was made and conceived during my employment with Cordant Technologies Inc. The invention is related to the work that I am employed to perform and was made within the scope of my employment duties. The invention was made during working hours and with the use of facilities and services of Cordant Technologies Inc.

3. The invention was not made (conceived or first actually reduced to practice) under nor is there any pertinent relationship of the invention to the performance of work under any contract with the National Aeronautics and Space Administration.

4. The undersigned inventor declares that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Andrew J. Sanderson
